

Water Bar

Model WDC-E-034 | WDC-E-032

US

WARRANTY POLICY

(Effective for orders placed on or after 26th March 2025)

We, Strauss Water ("strauss-water.com", "we" or "us"), would ask that you take the time to read this warranty policy carefully. The warranty policy applies to the purchase of a water system from us.

This warranty policy may change from time to time. The relevant warranty policy will be the policy effective as at the date of your order. If you have any queries regarding the warranty policy, please contact us using the contact details set out below.

WARRANTY

1. All water systems are provided with an initial 12 month warranty as detailed in this warranty policy.
2. The warranty is non-transferable.
3. The warranty covers normal and reasonable use, and any defects in material or workmanship of the Water system for a period of:
 - 3.1 For mains connected water systems: 12 months from installation by one of our authorised technicians; or
 - 3.2 For all other water systems: 12 months from the date of purchase.
4. The warranty does not guarantee that the water system will never fail or malfunction.
5. To make a claim under the warranty, please contact us by email at Tami4@YJCTrade.com or telephone our Customer Service team on +1 646-530-6455. We will require you to run a series of checks on the water system

and we shall attempt to rectify the fault over the phone. If, following these checks, it is not possible to rectify the fault over the phone, we will:

- 5.1 For mains connected water systems: arrange for one of our engineers to visit and repair the water system. If during such a visit, the engineer finds no fault with the water system, you shall be obliged to pay for the cost of the engineer's visit; or
 - 5.2 For all other water systems: arrange for collection of the water system and review the fault. If no fault is found, or the relevant fault is outside the warranty's scope, you will be responsible to pay the cost for return of the water system to your address.
6. If a valid claim is made under the warranty we will, at our option, repair the water system or replace any faulty water system free of charge. If we choose to replace the water system (at our sole election) we may do so with the closest available product.
 7. Repair and replacement under the warranty does not extend to replacing external plastics parts of the water system or its casing that may require to be changed for aesthetic reasons.
 8. The warranty does not apply to the panels, drip tray, water tank or spout of any water system.
 9. Any parts which are returned to us will become our property upon receipt of the same by us.
 10. Please retain your proof of purchase. If you do not have your proof of purchase, we will need to verify your address and identification against those received when making your purchase. If you have purchased a water system from a third party retailer, you will also need to register your purchase by emailing the Customer Service team customerservice@strauss-water.com with your water system's product number.
 11. For all mains connected water systems, the repair and replacement of the water system (or any parts) must occur to and from the same address and must be the delivery address unless you have organised a property relocation with us in accordance with our Sales Terms and Conditions.
 12. Any remaining term of the warranty for a replaced water system will apply to the replacement water system. The replacement of the water system will not extend or restart the period of the warranty.
 13. We reserve the right to change the method by which we may provide the warranty service to you (i.e. replace the water system rather than repairing).

EXCLUSIONS FROM THE WARRANTY

1. The warranty does not cover any defect in the water system arising as a result of, due to, or from:
 - 1.1 careless operation or handling, misuse, abuse and/or lack of maintenance;
 - 1.2 use of consumables, parts and accessories other than those produced or recommended by us;
 - 1.3 failure to change all consumables or carry out recommended maintenance (e.g. descaling) at the recommended periods;
 - 1.4 external sources outside our reasonable control including but not limited to exposure to chemicals, water supply distributions, water quality issues, natural disasters, fire, lightning, acts of war, civil unrest, weather, electrical outages or power surges;
 - 1.5 repairs, modifications, installations, re-locations, re-installs or alterations carried out other than by us or our authorised representatives;
 - 1.6 normal wear and tear (e.g. fuse etc.);
 - 1.7 cosmetic damage, including but not limited to scratches, dents and broken plastic;
 - 1.8 deliberate damage, accident, mishandling or neglect by you or any third party including but not limited to damage from sharp objects or dropping the water system;
 - 1.9 the unblocking of drainage channels or similar related to your property's plumbing;
 - 1.10 use other than as recommended by us;
 - 1.11 failure to follow the instructions, including but not limited to the use of unauthorised water filters or using the water system for purposes outside its intended use;
 - 1.12 infestation of insects or bugs. Please note that in the case of infestation, we will not remove the water system due to the risk of infestation spreading and you will have to make arrangements for, and pay the costs of, disposal.
2. If the serial number or other identification markings have been removed or defaced, your water system will not be covered by the warranty.
3. The warranty will not apply to water systems purchased from unauthorized dealers or re-seller / auction sites such as eBay;

4. If any fault to the water system is outside the scope of the warranty or is otherwise caused by your fault or negligence, we shall notify you and shall be entitled to charge you for, any engineer call outs, replacement parts, and/or return of your water system at our current standard charges.
5. The warranty does not apply to any water systems bought and used outside of The USA.
6. We also reserve the right to charge for the expense of returns or an engineer call out, where no fault has been found on inspection of the water system.

IMPORTANT INFORMATION

1. The warranty provides consumers specific contractual rights in addition to their legal rights. The warranty does not affect your consumer legal rights and if you experience any defects with your water system, you may choose whether to claim under the warranty or under your consumer legal rights.
2. Please note the limits on our liability as set out in our Sales Terms and Conditions apply to the warranty given under this warranty policy.
